Foreword

by Saleem Ahmed C.E.O.

Growing a company like Dahbashi Engineering has been, for me, an experience similar to raising my own family. It all began as the seed of a dream that I hoped to nurture into a firmly rooted and strong organization with an identity that would endure far beyond myself.

And here we are today. I am, once again, entering a new year with Dahbashi Engineering and I could not be more grateful for the family I have found in all of you.

As with any family, ours has had its share of celebrations and turbulent times. In the not too distant past, we rejoiced over our 25th anniversary and in the more recent years we have bid farewell to some stalwart members whose contributions have been invaluable. I have come to learn that the only thing in life that can be taken for granted is change.

Difficult decisions are never easy especially when they affect your family. But when the survival of the family is at stake the only thing you can do is to firmly grip the helm, hope that you can steer clear of the rocks and pray that the rest of your family keeps sailing with you. And in this you all have done me proud.

Reserve Power News

First Direct Supply to Oil & Gas Industry

by Alvin Ranulfo G. Tuazon
Sales Manager – Reserve Power

MRP Division's Reserve Power department bagged its first direct order from a key Liquefied Natural Gas (LNG) provider in the UAE comprising of various capacities of Hoppecke VRLA Batteries.

The batteries ordered are used for Solar Power and Uninterruptible Power Supply (UPS).

The contract's scope included commissioning of cells in DE-DIC workshop, supervision during installation and disposal of old battery banks.

Project will be concluded by end of February 2018.

“Businesses owned by responsible and organized merchants shall eventually surpass those owned by wealthy rulers.” – Ibn Khaldun

Profile

Parashuram Guptha

*by Manu Sharma**Assistant Manager – Human Resources*

Parashuram Guptha is a young, dynamic and enthusiastic person in the Sales Administration team of Dahbashi Engineering. He joined Dahbashi Engineering on 29th March 2011 as Stores Helper under Mr. T. Diwakar Menon (Warehouse Manager – Retired). He was subsequently transferred in the same year to Sales Administration department as Administration Sales Assistant based on his performance.

Parashuram hails from the alluring and attractive garden city of Bengaluru, India. His determination to prove his worth and support his family brought him to the shores of Dubai. He has shouldered the added responsibilities of his ex-colleagues and proven his worth to the department. He has successfully mentored his junior colleagues and new members in the team.

He currently administers export sales for Hyderabad (India), Kingdom of Saudi Arabia and Kuwait independently. Apart from work, he actively participates in cricket and table tennis.

Parashuram is the youngest sibling in a family of 5 members. Two of his elder sisters are happily married. Father is a retired business man and mother is a homemaker.

"I want to engrave a lot of tattoos on my body." Is Parashuram's passion and he is a frequent visitor to tattoo parlors during his vacation.

I have witnessed Parashuram's transformation from a silent and introvert being to a great entertainer during lunch and in the company transport.

On asking about what he likes the most in DE, his answer is, *"My manager, who makes the work environment so light even during adverse situations."*

He is an affable character with ability to articulate amongst his peers and superiors and has forged lasting relations with them. **Keep it up Parashu !** we wish you many successful innings in DE.

DE Certified to ISO9001:2015
