Battery Charging and Changing facility - Dubai
Industrial Park (formerly known as DIC)

by Usman Ejaz Kunda - Assistant Sales Manager, Motive & Reserve
Power Division, Dahbashi Engineering

Inside This Issue

TRUEBELL Battery Charging and
Changing facility - Dubai Industrial Park
(formerly known as DIC)

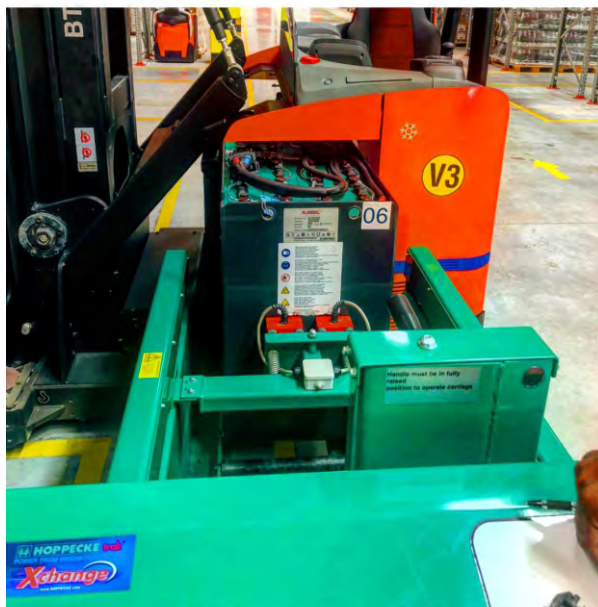

Profile - Raju Nepali - page 2

Sustaining a consistently high level of performance requires unique capabilities that may differ sharply from the strategies used to succeed in the first place.

We strive to stay ahead of the competition by offering innovative and cost effective turnkey solutions for battery charging and changing.

Truebell Marketing and Trading LLC is yet another customer we have acquired for a lifetime. Founded in 1984, they have established themselves as one of the preferred suppliers with business interests in food, beverages, hospitality, supplies and retail duty free.

We had approached Truebell at the drawing board stage of the project to discuss various options pertaining to battery charging, storage and handling. After numerous meetings and onsite surveys, Truebell decided to accept an easy to operate, safe and economical solution offered by our team. *Continued on Page 2*

Continued from Page 1

The outcome is that Truebell is able to effectively utilize the space, plan for future expansion, increase productivity by optimizing logistical routes and reduce energy consumption.

A big thank you to Mr. Shankaran K Padipurakal, Supply Chain Manager at Truebell, for his support and valuable inputs. Kudos to the Dahbashi Engineering service team for their timely execution of the installation and training.

"All growth depends upon activity. There is no development physically or intellectually without effort, and effort means work." - Calvin Coolidge

Profile

Raju Nepali

by Suresh Chand Vaishnav,

Branch Supervisor - Dahbashi Heavy Equipment Parts & Services, Kingdom of Bahrain

Raju Nepali was born in Guwahati, Assam, and raised in Syangja – a district in Gandaki Pradesh, Nepal.

In 2006, Raju joined the Bahrain branch as an office peon and eventually rose to the position of counter salesman due to his hard work and commitment.

A good team player with a positive attitude, he has a good rapport with all his colleagues and has proven to be a dedicated and loyal employee.

His work included tending to counter sales, handling petty cash, answering customer calls and placing orders for parts to Dahbashi Engineering.

Raju enjoys cooking and painting and it may come as a surprise to learn that he is a talented artist.

His family consists of 6 members. His mother and wife are both homemakers while his younger brother Ramu is part of the DE family in Qatar. His younger sister is married and both his sons are currently studying.

Raju has overcome many hardships earlier in his life. His previous work experience includes his having worked as a broker, a railway ticket agent and even as a driver. His determination to better his life drew him to the Middle East.

We wish Raju good luck and fortune always!
